Public Information—Debbie:

Last month, I reported that I made several attempts to contact the woman who handles public information for OA World Service Office. I never heard back from her and consider that a dead end. The San Diego chapter had to cancel its webinar on social media for promoting OA. I am hopeful that will be offered in the very near future as I believe a social media approach could yield benefits.

Update on the library book project. More libraries need to be contacted before books are ordered. Expect this to be done this summer.
